PERRY'S.

Lovers of fine Lace Curtains are going to have a feast of it here for a few days. We have just bought about one hundred pairs of real Point Brussels Lace Curtains. And we bought them because there was a bargain in them for you.

The importers "let go" because it was getting so late in the season. And we took them because we were sure that you would appreciate just such an offering as we could make of them. Did we reckon a-right?

They are among the hand-somest designs that have been seen this winter. Exclusive effects. Quantities limited to the number of pairs advertised. You ought to be ready buyers with such values offered at from \$10 to \$15 saving.

One best piano, the "Bradbury"

The rich, sympathetic quality of the tone of the Bradbury as an accompaniment to the human voice is the most distinguishing feature of this most excellent Piano. It is firstly and lastly the Piano for the home. The Piano best adapted to accompany the singer. Unlike most Pianos, its tone improves as it grows older. In its manufacture the utmost precision is given to details—the adjustment of the most delicate parts of its action, hence it is perfect in touch—as perfect as human skill can make it.

The "Bradbury" cases are conceded the most beautiful and artistic of all Pianos. Every handsome and durable wood—walnut, rosewood, quartered oak, mahogany and Hungarian ash—is used, together with the finest old hand-carved decorations, make it an ornament to the most beautiful and elegantly furnished parlor.

Your old Square Piano will be taken in part payment for a new "Bradbury" Upright, and you will be allowed its full value. You can pay the balance in small monthly payments.
